

Founded in 1994, HG Signs is a total signage solutions specialist. We produce a wide variety of signs, banners, vehicle graphics and wraps. Our company strives to exceed your signage demands and needs.

Well established in the industry and known in the state as one of the premier providers of corporate, commercial, and business signage. Our company has serviced a number of different business sectors ranging from municipalities, retail, formal education, health care, automotive, real estate and financial services to small business owners.

Our goals and principles are the same for all of our clients, to do our part in making your business surpass the competition through your branding and professional image.

Your messaging is important to your brand and identity. We are here to bring that to life in the most impactful way. With our expert team and state of the art printing technology, we give your business visual uniqueness that gets noticed, drives consideration, and makes your customers aware of you.

Lowen Certified Installer

HG Signs is a Lowen Certified Installer in Southeastern Michigan. Lowen Certified is the largest and most experienced 3M Preferred graphics installation training and testing center in North America.

## Design Services

Companies depend on our HG Signs Design Team for their marketing and advertising solution needs. We use state-of-the-art, software and technology and techniques to create high-impact, cost effective graphics that produce the results that our clients can get excited about.

## Digital Offset Printing

HG Signs can help with full service digital and offset printing. Some of those services include: business cards, brochures, envelopes and even books.

## Signs and Displays

We can provide amazing photographic quality on all media for indoor or outdoor signs and display applications. Our team will assist you in specifying the materials, terms, and design recommendations for all your projects.

## Custom Decals

Our custom vinyl decals are self adhesive and can be applied to virtually any surface including windows, doors, painted surfaces, helmets and vehicles. Use HG Signs decals to decorate, identify products, places, or equipment; communicate ideas, instructions or warnings; promote companies, programs, and events.

WHO WE ARE

WHAT WE DO

## Vehicle Graphics and Wraps

Vehicle graphics are effective promotional tools because they combine the key elements of marketing, advertising and branding, into one convenient and proven solution. They are high impact, cost effective and work for all types of organizations and businesses as we customize vehicles into mobile billboards for our customers.

We have provided vehicle graphics and vehicle wraps for many municipality vehicles as well as commercial fleet vehicles. Unlike stationary signage such as billboards, HGSigs' Design Team will build your vehicle graphics or vehicle wrap design with all of your needs in mind. Your logo, services and contact information are the most important elements of the design for your custom vehicle graphics or vehicle wrap. The marketing message must be clear to read and understand. Our HGSigs Design Team is confident that once we take your custom graphics and integrate them into a clean design, you will get noticed on the road.

## Storefront Window Graphics

When a potential customer drives up to your building, restaurant or storefront and they look at the outside; does it clearly express what you do on the inside? If not, let us help you create a look that will drive more business to you. Our HGSigs Design Team can create a custom storefront window graphic display or building wrap for

part of or for all of your structure. Considering that for many businesses, your building is a large part of your overhead costs; utilize it to increase your ROI (Return on Investment). Eye catching graphics on the windows and building will set you apart from other businesses.

## Banners

Our team can produce full color custom banners using the latest technology and the most durable inks and materials. Banners are a great way to promote your business both indoor and outdoor, especially for grand

openings, trade shows, clearance sales, etc. We also offers an assortment of banner stands and pole kits for trade show applications or in store marketing.

## Wall and Floor Graphics

Marketing within a retail culture requires brilliant branding with graphics that draw the consumer's eye. Using the floors and walls of buildings for branding has been met with amazing success. Our floor, wall graphics and wraps may be used short or long term, indoor or outdoor, on smooth or rough surfaces and are available with UV and slip resistant laminate to ensure long life and durability.

## Electronic Outdoor Signs

In addition to our other signage options HGSigs also offers a line of electronic signage solutions. We work with the latest LED technology to provide the look for your business needs. We'll work directly with your local municipality to handle all permitting and zoning issues that arise. Why not outfit your location with the latest in signage needs and bring a new light and edge to your messaging needs.
